

POINT-TO-POINT

About Pacific LightNet Point-to-Point

Pacific LightNet Point-to-Point provides dedicated connectivity between two or more service areas: including island-wide, statewide, nationwide, and Japan. Because the locations are directly linked, the connection is both inherently secure and private. Point-to-Point is available in bandwidths ranging from DS-1 to OC-n.

How Pacific LightNet Point-to-Point Works

Benefits of Pacific LightNet Point-to-Point

- ◆ Dedicated connection guarantees privacy of data transmissions
- ◆ Ensures uninterrupted service
- ◆ Provides 24/7 network monitoring
- ◆ Easy connectivity to other carriers

Pacific LightNet Point-to-Point is an Ideal Solution if you:

- ◆ Need to transfer large amounts of data
- ◆ Need the security of a dedicated circuit
- ◆ Need disaster recovery connectivity
- ◆ Need to connect to and share centralized applications/facilities with remote locations
- ◆ Want redundant service in case of a LEC outage
- ◆ Need guaranteed bandwidth between locations at all times
- ◆ Need more bandwidth for your Internet solutions

Who We Are

For more than a decade, Pacific LightNet's all-island fiber-optic network has provided local businesses with telecommunications connectivity throughout Hawaii and the world. With more than 100 people working together statewide, Pacific LightNet's full range of services offer the simplicity, the power, and the economy of integration to move Hawaii businesses forward at the speed of light.
